### **New Park Regis travelling app brings the best of Sydney to guests' pockets**

Sydney hotel Park Regis City Centre has recently launched a new online travel service app providing guests with a one-stop-shop for traveller information in the Sydney region.

The new app named *Digital Butler*, is a free digital service connecting guests with information on hotel facilities, suggested dining outlets, transportation guides and many other Sydney based activities.

Park Regis City Centre General Manager Terry Dwyer is proud to offer this free service which enhances guests' travelling experience by having the best of Sydney at their fingertips twenty-four seven.

"Many of our guests are new to Sydney and unsure of the best dining outlets and activities on offer – Digital Butler adds value to our guests travelling experience which is accessible and downloadable via our free hotel Wi-Fi," said Mr Dwyer.

The new app is available on any smartphone, tablet or laptop, anywhere, anytime allowing guests to book Sydney activities, restaurants and rental cars via the app.

Park Regis City Centre is the first of the Park Regis brand to offer this service to guests.

"We've been working on the Digital Butler integration for the past six months and hope to roll out the app across other Park Regis hotels in the near future if successful."

For more information on Park Regis City Centre's Digital Butler visit <http://digitalbutler.parkregiscitycentre.com.au>
